The support notes presented are not exclusive or definitive.

The support notes in many cases contain key phrases which must appear in the candidate’s answer in order to merit the assigned marks.

Further relevant points presented by candidates will be marked and rewarded on their merits.

The detail required in any answer is determined by the context and the manner in which the question is asked, and by the number of marks assigned to the answer in the examination paper. Requirements and mark allocations may therefore vary from year to year.
SECTION A

1. Complete the missing words in the spaces below to complete the names of the organisations.

   (i) NAMA: NATIONAL Asset MANAGEMENT Agency. 2 MARKS + 2 MARKS
   (ii) ECB: EUROPEAN Central BANK. 3 MARKS + 3 MARKS
   (iii) IMF: INTERNATIONAL MONETARY Fund. 3 MARKS + 3 MARKS

   (16 marks)

2. Name the economic system (Free Enterprise, Mixed Economy or Centrally Planned) to which each statement below best applies:

<table>
<thead>
<tr>
<th>STATEMENT</th>
<th>ECONOMIC SYSTEM</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i) Major government involvement in the economy</td>
<td>Centrally Planned</td>
</tr>
<tr>
<td>(ii) The market system decides what to produce</td>
<td>Free Enterprise</td>
</tr>
<tr>
<td>(iii) Production is carried out by the public sector and the private sector.</td>
<td>Mixed Economy</td>
</tr>
</tbody>
</table>

   (16 marks)

   1st correct answer: 8 marks. 2nd & 3rd: 2 x 4 marks each

3. State one economic advantage and one economic disadvantage of the possible introduction of third level college fees.

   One economic advantage:
   1. Increased revenue for colleges.
   2. Reduced strain on the government’s finances.
   3. Opportunity cost: government can use finances given to colleges for other uses.
   4. Colleges can appoint new staff / introduce new courses.

   One economic disadvantage:
   1. May discourage people going to third level.
   2. The fees may fall more heavily on low income families and so may be inequitable.
   3. If less people attend, the workforce may be less educated / less skilled.
   4. Could damage Ireland’s ability to attract FDI / MNCs.

   (16 marks)

   1st correct response: 12 marks. 2nd correct response: 4 marks.
4. The diagram below represents the long run equilibrium of a firm in Perfect Competition.
(a) Label each of the lines numbered 1 to 5. Use the answer box provided.
(b) Show on the diagram the output the firm will produce in equilibrium (use label Q₁).

![Diagram](image)

<table>
<thead>
<tr>
<th>No.</th>
<th>Label</th>
<th>Marks</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>PRICE</td>
<td>2</td>
</tr>
<tr>
<td>2</td>
<td>MARGINAL COST</td>
<td>3 (2+1)</td>
</tr>
<tr>
<td>3</td>
<td>AVERAGE COST</td>
<td>3 (2+1)</td>
</tr>
<tr>
<td>4</td>
<td>DEMAND / AR / MR</td>
<td>3 (2+1)</td>
</tr>
<tr>
<td>5</td>
<td>QUANTITY</td>

</tr>
</tbody>
</table>

(16 marks)

Q₁ 3 marks  (If Q₁ not stated but line drawn – 1 mark)

5. In relation to the following **barriers to trade**, match the barrier with the correct explanation
(One answer is completed for illustration purposes).

<table>
<thead>
<tr>
<th>BARRIER</th>
<th>EXPLANATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Administrative barriers 1. A payment to exporters to reduce production costs.</td>
</tr>
<tr>
<td>B</td>
<td>Embargo 2. A limit on the quantity of goods imported.</td>
</tr>
<tr>
<td>C</td>
<td>Quota 3. Rules / regulations applying to imports.</td>
</tr>
<tr>
<td>D</td>
<td>Subsidy 4. A tax on imports.</td>
</tr>
<tr>
<td>E</td>
<td>Tariff 5. A total ban on imports.</td>
</tr>
</tbody>
</table>

1st and 2nd correct response: 2 x 6 marks each.
3rd and 4th correct responses: 2 x 2 marks each.

(16 marks)

6. Explain the term **economic good**. Circle the **two** examples of economic goods from the list below.

**Explanation:**

It is a good which is **SCARCE** / commands a **PRICE**, is **TRANSFERABLE** and provides **UTILITY**.

Any two points of information x 4 marks each = 8 marks.

Circle only two of these:

- Beauty
- Cars
- Food
- Intelligence

1st correct response: 5 marks. 2nd correct response: 4 marks.
(17 marks)
7. Some of the factors outlined below influence **consumer demand for a good**. Write **TRUE** or **FALSE** after each of the following sentences.

<table>
<thead>
<tr>
<th>SENTENCE</th>
<th>TRUE or FALSE</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i) The price of the good itself.</td>
<td>TRUE</td>
</tr>
<tr>
<td>(ii) The cost of producing the good.</td>
<td>FALSE</td>
</tr>
<tr>
<td>(iii) The state of production technology.</td>
<td>FALSE</td>
</tr>
<tr>
<td>(iv) The income of the consumer.</td>
<td>TRUE</td>
</tr>
</tbody>
</table>

(17 marks)

1st and 2nd correct responses: 2 x 6 marks
3rd correct response: 3 marks. 4th correct response: 2 marks.

8. One of the economic aims of the Irish Government at present is to reduce Government Current Spending. State **three** other economic aims of the Government.

1. Increase employment / decrease unemployment / attract FDI (MNCs).
2. Keep price inflation down – limit price increases.
3. Achieve economic growth.
5. Reduce the current budget deficit (by 2014).
6. Reduce borrowing / control the national debt as a percentage of GDP.
7. Achieve a just / fair taxation system (equity) / increase the tax base.
8. Promote balanced regional development.
9. Develop the country’s infrastructure.
10. Maintain state services / make public services more efficient i.e. health/education etc.
11. Achieve an equitable distribution of income / achieve a just social policy.
12. Restore stability to the Irish banking sector.
13. Restore confidence among consumers / encourage consumers to start spending.

(17 marks)

1st correct response: 9 marks. 2nd & 3rd: 4 marks each.

9. **If National Income (Y) = C + I + G = €2,400m, calculate the National Income if exports are €300m and imports are €200m (Show all your workings).**

<table>
<thead>
<tr>
<th>WORKINGS</th>
<th>ANSWER</th>
</tr>
</thead>
<tbody>
<tr>
<td>[ Y = C + I + G + X - M ]</td>
<td>€2,500 m</td>
</tr>
<tr>
<td>[ Y = €2,400m + €300m - €200m ]</td>
<td></td>
</tr>
</tbody>
</table>

(17 marks)

Each component: 3 figures x 3 marks each = 9 marks
2 signs x 2 marks each = 4 marks
Correct answer = 4 marks
The diagram below represents a *Monopoly* firm in equilibrium.

(a) (i) Copy the diagram into your answer book. Write each of the 6 (six) labels in full (other than Q1).
(ii) The firm produces Q1 output in equilibrium. Show on your diagram:
- the price charged for this output (use label P1)
- the average cost of producing this output (use label C1)

(30 marks)

**1st correct response: 11 marks. State: 8 marks. Explain: 3 marks.**

**2nd and 3rd correct responses: 2 x 5 marks each. State: 3 marks. Explain: 2 marks.**

**Example on its own of each barrier with no explanation: 1 mark only.**
(c) The Electricity Supply Board (ESB) is facing increasing competition and possible privatisation.

(i) Explain the underlined term.

(ii) Name one company currently competing with the ESB for domestic / home electricity supply.

(iii) State and explain one way any two of the following may be affected by the possible privatisation of the ESB:

- consumers of the ESB;
- employees of the ESB;
- the Irish Government.

(24 marks)

(i) **Privatisation – 6 marks**

This is the sale of a state owned company to private owners. (3 marks + 3 marks)

The transfer of ownership from the Government owned public sector to the private sector.

(ii) **Bord Gais / Air Tricity: 6 marks**

(iii) **One way any two** of the following may be affected by the privatisation of the ESB

<table>
<thead>
<tr>
<th>CONSUMERS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Positive effects</strong></td>
</tr>
<tr>
<td>Any 1 x 6 marks. State: 3m. Explain: 3m</td>
</tr>
</tbody>
</table>

1. **Quality / Choice of services**
   The privatised firm may improve the quality / efficiency / choice of the service provided.

2. **More competitive prices**
   The firm may offer consumers more competitive prices on its various services.

3. **Continuity of supply**
   The newly privatised company may have access to new sources of funds and because they are not subject to government interference their long term prospects for survival may improve – ensuring continuity of supply for consumers.

4. **Increased prices / Charges for services**
   In a drive to increase profits the new firm may increase prices for some services provided / charge for services which were considered ‘free’ e.g. free units of electricity to OAPs.

1. **Loss of non-profit making services**
   Non-profit making services may be discontinued by the company in an effort to reduce costs e.g. discontinue supply of service to people who are in arrears with their payments.

2. **Standards of service**
   The quality of services provided by the company may deteriorate in an effort to save costs.

3. **Preference to meet shareholders demands**
   Greater emphasis may be placed on meeting the expectations of shareholders rather than improving the quality of the service for consumers.
# EMPLOYEES

<table>
<thead>

</tbody>
</table>

(c) The opening of new sections of motorways between Dublin and other Irish cities has affected the demand for rail transport in Ireland.

(i) Outline one possible economic advantage OR one possible economic disadvantage of these new motorways for the public.

(ii) State and explain two actions Iarnród Éireann (Irish Rail) could take to increase demand for its services.

(iii) Explain two advantages for the Irish economy of increased use of public transport such as Iarnród Éireann (Irish Rail), instead of private transport. 

(20 marks)
(i) Outline one possible economic advantage OR one possible economic disadvantage of these new motorways for the public.

<table>
<thead>
<tr>
<th>Possible economic advantage</th>
<th>Possible economic disadvantage</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Safer Transport</strong></td>
<td><strong>1. Reduced economic activity</strong></td>
</tr>
<tr>
<td>There may be reduced risk of accidents with the improved motorways.</td>
<td>Those towns by-passed may suffer a reduction in business activity, resulting in job losses.</td>
</tr>
<tr>
<td><strong>2. Quicker Journeys / easy access</strong></td>
<td><strong>2. Possibility of tolls</strong></td>
</tr>
<tr>
<td>Better roads will allow motorists achieve greater speed and so reach destinations in shorter times. All regions are easily accessible.</td>
<td>Users of the new motorways may have to pay tolls for using the new roads.</td>
</tr>
<tr>
<td><strong>3. Improved lifestyle</strong></td>
<td><strong>3. Damage to environment</strong></td>
</tr>
<tr>
<td>The citizens of those towns by-passed will have less traffic congestion and with less traffic their lifestyle may improve.</td>
<td>The new motorways may be built in areas which damage the environment e.g. the M3 through Tara in Meath.</td>
</tr>
<tr>
<td>Generated in the maintenance of roads / collection of toll charges. If more people use the roads the government will collect increased VAT and excise duties.</td>
<td>Underutilisation of the roads may result in additional costs to the state / the money could have been used for other purposes.</td>
</tr>
</tbody>
</table>

1 point x 6 marks. State: 3 marks. Explain: 3 marks

(ii) State and explain two actions Iarnród Eireann (Irish Rail) could take to increase demand for its services.

1. **Reduce prices** to attract more customers to use rail.
2. **Incentives for regular rail travellers** such as loyalty reward programmes may attract more users.
3. **Advertising/Sales Promotion** campaigns may encourage more people to use rail transport.
4. **Increased frequency of trains** to suit customers e.g. business travellers; shoppers; students etc.
5. **Improve quality of service / improved accessibility:**
   - Allow customers to book seats in advance; provide quality food at competitive prices etc.
   - Develop the rail network so that all parts of the country are accessible.

2 points x 6 marks each. State: 3 marks each. Explain: 3 marks each.

(iii) Explain two advantages for the Irish economy of increased use of public transport such as Iarnród Eireann (Irish Rail), instead of private transport.

1. **Reduced traffic congestion** resulting from reduced numbers using private transport.
2. **Reduced carbon emissions** resulting in reduced damage to the environment.
3. **Reduced use of fossil fuels:** More people using public transport will reduce the use of fossil fuels thereby saving scarce resources.
4. **Improved safety** with less people using the roads this reduction may result in a reduced number of accidents.
5. **Improved utilisation of services / Economies of scale:**
   - There may be an improved return on the (state) investment in infrastructure / the cost of providing the service may fall if more people use the service.
6. **Reduced imports:** Less cars may be demanded resulting in reduced imports, improving the balance of trade.
7. **Lower cost of living:** Consumers will not have to pay various taxes VRT, VAT and excise duties.
8. **Increased employment:** More workers may be required, resulting in increased tax revenue / reduced social welfare spending.

2 points x 6 marks each. State: 3 marks each. Explain: 3 marks each.
Q3 Costs, Wages, Minimum Wage Rate

(a) A retailer needs capital to commence business. A retailer also needs to purchase stock, pay wages and pay rent for premises.

(i) Explain the term ‘capital’ as a factor of production.
(ii) Define the terms fixed costs and variable costs.
(iii) State whether each of the three underlined costs above is an example of a fixed cost or a variable cost. (25 marks)

(i) Capital: 6 marks

Anything man made which helps in the production of output.

4 marks 2 marks

(ii) + (iii)

(iii)

<table>
<thead>
<tr>
<th>Fixed Costs</th>

<td>3 marks</td>
</tr>
</tbody>
</table>
(b) Wage levels have fallen in both the public sector and the private sector in Ireland.

(i) Explain each of the underlined terms and state one example of an occupation in each.

(ii) Discuss two economic effects which falling wage levels may have on each of the following:
- Businesses;
- Government finance

(25 marks)

(i) Explain each of the underlined terms and state one example of an occupation in each.

Public sector: 5 marks ( 3 + 2 for example )
That part of the economy which is run by state bodies / government departments, usually to provide services for its citizens and is controlled by the state.
Example: a teacher

Private sector: 4 marks ( 2 + 2 for example )
That part of the economy which is run by private individuals or groups and is not controlled by the state.
Example: a shop worker

(ii) Discuss two economic effects which falling wage levels may have on each of the following:
- Businesses;
- Government finance

<table>
<thead>
<tr>
<th>Economic effects which falling wage levels may have on:</th>
<th>Businesses</th>
<th>Government finance</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Reduced costs / Lower prices</td>
<td>Costs of production will fall resulting in greater profits for businesses.</td>
<td>1. Reduced current expenditure</td>
</tr>
<tr>
<td></td>
<td>With falling costs businesses may become more competitive which could result in lower prices.</td>
<td></td>
</tr>
<tr>
<td>2. Continuity of production</td>
<td>With reduced costs it may help the business continue to produce.</td>
<td>2. Reduced borrowing</td>
</tr>
<tr>
<td>3. Hiring additional labour</td>
<td>With lower wage costs it may permit the business to hire additional labour.</td>
<td>3. Reduced direct tax revenue</td>
</tr>
<tr>
<td>4. Reduced demand for output</td>
<td>With falling wage levels disposable income will fall. This will result in reduced demand for the firms output.</td>
<td>4. Reduced VAT / Excise duties revenue</td>
</tr>
<tr>
<td>5. Difficulty in filling job vacancies</td>
<td>If wage levels fall beyond a certain point people may be financially better on state benefits and business may become short staffed and unable to provide quality goods / services.</td>
<td>5. Effect on social welfare payments</td>
</tr>
</tbody>
</table>

2 x 4 marks each.
State: 2 marks. Explain: 2 marks.

2 x 4 marks each.
State: 2 marks. Explain: 2 marks.
In the Government’s Budget introduced in December 2010, the national minimum wage was reduced from €8.65 to €7.65 per hour.

(i) Explain the underlined term.
(ii) State two economic reasons why, in your opinion, the national minimum wage was reduced.
(iii) Outline two possible economic effects of this wage reduction for the Irish worker. (25 marks)

(i) The minimum wage: 5 marks

The lowest wage that employers must, by law, pay their employees.

2 marks 3 marks

(ii) State two economic reasons why, in your opinion, the national minimum wage was reduced.

1. Reduce costs / restore competitiveness: by reducing costs a business can continue in existence / allow a firm make greater profits.
2. Reduce prices: With production costs falling the firm may be able to reduce prices.
3. Increase employment: Cheaper labour may encourage firms to hire extra labour.
4. Attract investment: Reduced wage costs may encourage foreign firms to locate in Ireland.
5. Encourage MNCs to stay in Ireland:
   Less foreign MNCs may re-locate outside Ireland if wages costs are reduced.

2 x 5 marks each = 10 marks.
State: 2 marks. Explain: 3 marks

(iii) Outline two possible economic effects of this wage reduction for the Irish worker.

1. Lower standard of living: Income will be reduced resulting in a lower standard of living.
2. Lower productivity: A worker may, if pay is reduced, not put in the same effort into the work.
3. Reduced incentive to work: Some workers may decide that the rewards from working are insufficient and they may opt instead to give up their job and rely on social welfare.
4. Increase in debt / mortgage arrears /poverty: With lower incomes the worker may have to borrow to meet daily living expenses; and find it difficult to repay mortgages resulting in an increase in long term poverty.
5. Less leisure time: Workers may be prepared to take on additional jobs and work longer hours in order to maintain living standards leaving less time for family and social life.

2 x 5 marks each = 10 marks.
State: 2 marks. Explain: 3 marks
Q4 Trade and Tourism

You are given the following information about a country’s trade.

<table>
<thead>
<tr>
<th>Visible Exports (€ million)</th>
<th>Visible Imports (€ million)</th>
<th>Balance of Trade (€ million)</th>
<th>Surplus or Deficit</th>
</tr>
</thead>
<tbody>
<tr>
<td>24,000</td>
<td>23,600</td>
<td>400</td>
<td>Surplus</td>
</tr>
</tbody>
</table>

(i) Explain the terms 'visible exports' and 'visible imports' giving one example in each case, with reference to Ireland.

(ii) If the level of visible imports above increased by €600m calculate the new Balance of Trade. (Show your workings).

(iii) State whether the new Balance of Trade is a surplus or deficit and explain your answer. (25 marks)

(i) Explain the terms ‘visible exports’ and ‘visible imports’ giving one example in each case.

<table>
<thead>
<tr>
<th>Visible exports</th>
<th>Visible imports</th>
</tr>

(ii) 7 marks

Visible Exports = €24,000m
Less: Visible Imports: €23,600m + €600m = €24,200m

(iii) The Balance of Trade has now changed to a deficit. Because (visible) imports exceed (visible) exports. 2 marks
(b) Ireland as a small open economy relies on international trade.

(i) Explain the underlined term.
(ii) State and explain three economic reasons why Ireland needs to engage in trade. (20 marks)

(i) Small open economy: 5 marks
An economy which engages in trade / imports and exports.

(ii) State and explain three economic reasons why Ireland needs to engage in trade.

1. Job creation.
   Exports mean increased demand for goods produced in Ireland, leading to increased employment.

2. Increased GNP / Economic growth [ benefit to the country ]
   The monies received from exports will lead to increased incomes within the country.

3. Increased sales [ benefit to the business ]
   Domestic firms may increase their sales and their profits by exporting their excess output on a foreign market.

4. Earn foreign currencies
   The receipt of foreign currencies can boost Irish reserves / provide the currency to help pay for Ireland’s imports.

5. Attract investment
   Strong exports will enhance confidence in the country and may help attract investment into Ireland.

6. More choice for consumers / higher standard of living
   Consumers, through the availability of imports, have a much larger selection of goods and services available to them e.g. exotic fruits; foreign holidays etc.

7. Raw materials unavailable in Ireland
   Certain raw materials are not available in Ireland and must be imported e.g. oil. Our climate is unsuitable for the production of certain crops e.g. oranges.

8. Enhanced international reputation
   Selling quality goods and services abroad will enhance the reputation of the country and lead to further benefits.

3 x 5 marks each. State: 2 marks. Explain: 3 marks.
(c) Overseas visitors to Ireland are an example of an invisible export.
   (i) Explain the underlined term.
   (ii) State and explain two benefits for the Irish economy of an increase in the number of overseas visitors to Ireland.
   (iii) State and explain two actions which the Irish Tourist Industry could take to encourage visitors to Ireland.

(i) Invisible export: 6 marks
   The purchase of an Irish service by a foreign citizen / the money comes into Ireland. (2)

(ii) Two benefits for the Irish economy of an increase in number of overseas visitors to Ireland
1. Increased employment
   More jobs will be created in the hotel / restaurant and catering industry.

2. Increased income / GNP
   Tourists spend income in Ireland and this increases the circular flow of income.

3. Benefits to business
   Improved profitability for firms within the tourism industry
   Hotel, restaurants and pubs will face a less uncertain future and demand for their services will increase.

4. Tax revenues
   Increased employment will boost direct tax revenues and increased spending will boost indirect tax revenues.

   2 points x 6 marks each. State: 3 marks. Explain: 3 marks

(iii) Two actions the Irish Tourist Industry could take to encourage more visitors
1. Reduce air fares
   This will make it cheaper for people to visit Ireland.

2. Advertising
   Increase spending on international advertising so as to attract more people to visit e.g. current advertising campaigns in US, UK and Germany. Target specific markets such as golfing enthusiasts, equestrian enthusiasts to come to Ireland.

3. More competitive prices for accommodation / eating out etc
   Special prices could be offered for tourists for accommodation, food, transport etc and this may entice people to visit e.g. reduced prices for tourist menus in restaurants.

4. Special promotions
   Money-off vouchers / coupons in foreign magazines / newspapers, which tourists could use if they visit Ireland.

5. Car hire: The price for car hire could be subsidised and this may encourage foreigners to visit.

6. Industry lobbying of Government
   The industry could lobby the government to introduce measures which may aid the industry e.g. help with an advertising campaign (Ireland Inc.); reduction in public transport charges; reduction in the travel tax; reduction in VAT for tourism related products / services etc.

   2 points x 6 marks each. State: 3 marks. Explain: 3 marks
Q5  Budgeting, Taxation and the National Debt

(a) The Irish Government’s Current Budget Deficit was €1.5 m in December 2010 resulting from Government Current Income of €36.9m and Government Current Spending of €48.4m.

(i) Explain *each* of the underlined terms.

(ii) State *two* examples of Government Current Income and *two* examples of Government Current Spending.  

(25 marks)

(i) **Current Budget Deficit** – 5 marks

**Government current spending exceeds government current income.**

1 1 1 1 1

Government current income – 4 marks

**Income received by the government on a continuous / day-to-day basis.**

2 marks 2 marks

Government current spending – 4 marks

**Spending by the government on a continuous / day-to-day basis.**

2 marks 2 marks

(ii) **Two** examples (each) of:

<table>
<thead>
<tr>
<th>Government Current Income</th>
<th>Government Current Expenditure</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Direct tax revenue (or example)</td>
<td>1. Salaries of all state employees</td>
</tr>
<tr>

2 x 3 marks each = 6 2 x 3 marks each = 6
The Irish Government is considering the introduction of household water charges.

(i) Outline two economic reasons for the introduction of these charges.

(ii) Discuss two economic effects of these charges on households.  

(20 marks)

<table>
<thead>
<tr>
<th>Economic reasons for the introduction of these charges</th>
<th>Economic effects of these charges on households</th>
</tr>
</thead>
</table>
| 1. Revenue for government  
These charges will help raise revenue for the state. | 1. Lower standard of living  
Disposable incomes will fall and this will reduce people’s standard of living. |
| 2. Evasion eliminated  
It is impossible to evade these charges and so this means a more defined source of revenue for government / allows for better financial planning by government. | 2. Inequitable  
The charges may fall most heavily on people with lower incomes e.g. a large family will use more water and so pay higher water charges. |
| 3. Employment in metering  
Jobs will be created in introducing metering systems into homes etc. | 3. Reduced economic growth  
People will have less disposable incomes to spend so demand will fall and this will reduce economic growth. |
| 4. Development of infrastructure  
The revenue received may be used to invest in improving water supply infrastructure resulting in less water wastage from damaged pipes. | 4. Household budgeting  
Households must plan for these charges and so manage finances more carefully. They also involve an opportunity cost in that the income could have been spent on something else. |
| 5. Water conservation  
If people have to pay water charges then they may economise on its use and cut out waste. |  |

2 x 5 marks each.  
State: 2 marks. Explain: 3 marks

2 x 5 marks each.  
State: 2 marks. Explain: 3 marks
(c) Ireland’s **National Debt** as a percentage of GDP is continuing to increase.

(i) Explain the underlined term.

(ii) What do the initials GDP stand for?

(iii) State one reason why Ireland’s National Debt has been increasing in recent times.

(iv) State and explain two economic disadvantages which may result from this increase in Ireland’s National Debt. (30 marks)

(i) National Debt: the **total amount / cumulative** of government **borrowing** which is **outstanding**.

3 marks 2 marks 1 mark

(ii) GDP: **Gross Domestic Product** 6 marks (2 + 2 + 2)

(iii) One reason why Ireland’s National Debt has been increasing in recent times:

1. Increased borrowing by the state for current budget deficit purposes.
   (reduced tax revenues / increased current spending)
2. Increased borrowing by the state for infrastructural projects.
3. Increased interest rates on the loans.
4. Borrowing to finance the state’s bailout of the banks.

1 x 6 marks

(iv) Two economic disadvantages of the increase in Ireland’s National debt.

1. **Opportunity costs involved.**
   With more funds being used to meet our annual interest repayments the government has less funds available for other purposes.

2. **Increased burden on taxpayers.**
   The increase will mean that the government will have to consider increasing future taxes; introduce new household charges etc resulting in a lower standard of living for citizens.

3. **Increased annual interest repayments.**
   An increasing national debt means that the annual cost of repaying our national debt is rising.

4. **Risk to provision of public services / cuts in government spending**
   Due to an increase in the national debt the government has cut spending on public services, resulting in deterioration in the provision of some services e.g. the health service; education service.

5. **Reduced public confidence.**
   Citizens may lose confidence in the economy and reduce their spending. This may further reduce economic growth.

6. **Diminished international credit-rating.**
   The fact that Ireland is seen to have an increasing national debt means that our credit-rating is deteriorating.

7. **EU / IMF: conditions applied to Ireland.**
   The EU/IMF has attached conditions to our borrowing and so corrective action must be taken in economic policy matters and agreed by the EU / IMF.

2 points x 6 marks each.
State: 3 marks. Explain: 3 marks.
Q6 National Income, Ghost Estates and Infrastructure

(a) The ‘Multiplier effect’ tells us by how much National Income will increase following a given injection into the economy (e.g. an increase in government spending).

(i) Explain the underlined term.

(ii) Outline two economic effects which an injection may have on an economy.

(iii) Given the following information:

National Income is €600m.; The Multiplier is 2; Injection of €20m.

Calculate the new level of National Income. (Show your workings). (25 marks)

(i) National Income:

Income earned by the permanent residents of a country from current economic activity in one year.

2 marks                  2 marks                      2 marks

(ii) Two economic effects which an injection may have on an economy:

1. Increased demand
   An injection will lead to an increase in the demand for goods and services within an economy.

2. Increased employment
   Increased spending should lead to the creation of more jobs within an economy.

3. Increased inflation
   With higher spending there will be pressure on prices to increase.

4. Increased savings
   Higher demand will result in higher incomes and part of these incomes may be saved.

5. Increased imports
   With higher spending on goods and services the demand for imports will increase (due to MPM).

6. Government revenues
   An injection which increases spending and employment will result in increased taxation revenues.

   2 x 6 marks each.
   State: 3 marks. Explain: 3 marks.

(iii) Given the following information:

National Income is €600m.; The Multiplier is 2; Injection of €20m.

Calculate the new level of National Income. (Show your workings).

€20m x 2 = €40m + €600m = €640m

1 mark     1 mark     1 mark     1 mark             3 marks
(b) The fall in demand for residential property (houses) and the existence of ‘ghost estates’ (i.e. unfinished housing estates) are problems for the housing market in Ireland.

(i) State and explain two reasons for the falling demand for residential property.
(ii) State and explain one reason for the growth in these ‘ghost estates’.
(iii) Suggest two economic actions the Government could take in relation to these ‘ghost estates’. (25 marks)

(i) Two reasons for the falling demand for residential property.

<table>
<thead>
<tr>
<th>Reasons</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Higher interest rates</td>
<td>Interest rates have increased and this has led to less people seeking mortgages, leading to decreases in mortgage lending by financial institutions.</td>
</tr>
<tr>
<td>Availability of loans</td>
<td>Financial institutions lack funds and have restricted lending recently</td>
</tr>
<tr>
<td>Economic recession</td>
<td>With the rate of economic growth declining, less people are entering the property market, thereby decreasing demand.</td>
</tr>
<tr>
<td>Speculation in houses.</td>
<td>Decreases in property prices reduce speculative demand with less people seeking investment opportunities in property, reducing demand for residential property.</td>
</tr>
<tr>
<td>Expectations re: future prices</td>
<td>Some people may postpone buying now, hoping that prices for property will continue to fall by an even greater amount in the future.</td>
</tr>
<tr>
<td>Increased emigration / decreased immigration</td>
<td>Emigration is increasing and immigration is decreasing, thereby reducing the demand for residential property.</td>
</tr>
</tbody>
</table>

2 x 6 marks each. State: 3 marks. Explain: 3 marks.

(ii) State and explain one reason for the growth in these ‘ghost estates’.

1. Surplus of houses
   Too many houses were built during the ‘boom’ period and with falling demand a surplus of houses now exists.

2. Developers going bust / lack of finance
   With the collapse of the banking sector and the recession some developers went bankrupt and were unable to complete these estates. Developers continuing in business are unable to get the finance to complete the estates.

3. Unemployment / Economic recession
   With rising unemployment people are unable to get mortgages and the demand for property has decreased, resulting in surplus stock of houses.

1 x 5 marks. State: 2 marks. Explain: 3 marks.

(iii) Suggest two economic actions the Government could take in relation to these ‘ghost estates’

1. Demolish the unfinished houses, thereby providing employment.
2. Complete the houses and make them available for social housing.
3. Complete the houses and try to sell them on the open market.

2 x 4 marks each.
(c) The Construction Industry Federation (CIF) favours increased spending by the Irish Government on infrastructure. Such spending, however, involves an opportunity cost.

(i) Explain each of the underlined terms.
(ii) State two examples of major infrastructure projects recently completed in Ireland.
(iii) Outline one economic benefit for continuing to spend on Ireland’s infrastructure.  

(i) Infrastructure: 6 marks
- Those goods /services which are essential for the smooth running of an economy.
- Those goods /services which industry requires to function properly.
- Capital equipment used to supply publicly available services
  (Examples: transport, telecommunications, electricity and gas, water supplies: 3 marks)

Opportunity cost: 6 marks
- The cost of foregone alternatives.
- The cost of passing up the next best alternative when making a decision.
- The amount of other goods / services which could have been obtained instead of any good.

(ii) Two examples of major infrastructure projects recently completed in Ireland

<table>
<thead>
<tr>
<th>Terminal 2 Dublin Airport</th>
<th>Broadband</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Terminal Cork Airport</td>
<td>Luas West Link to Saggart</td>
</tr>
<tr>
<td>Motorways throughout Ireland</td>
<td>Limerick / Shannon Tunnel</td>
</tr>
<tr>
<td>National Conference Centre Dublin</td>
<td></td>
</tr>
</tbody>
</table>

2 x 4 marks each.

(iii) One economic benefit for continuing to spend on Ireland’s infrastructure

1. Reduced costs of completion
   With the economic recession the costs of completing these projects is now lower, so it may make economic sense to continue with these projects.

2. Availability of labour
   Large numbers of people are unemployed in the construction sector and by completing projects now, unemployment will fall and the state will make the best use of the available labour.

3. Economic growth
   Increased spending will help increase demand which in turns increases economic growth in Ireland. Improved infrastructure may encourage business to operate / may attract FDI

   For the people who are employed in these projects their standard of living will automatically rise. When these projects are completed the standard of living for citizens will rise, due to the availability of this improved infrastructure.

1 x 5 marks.
State: 2 marks. Explain: 3 marks.
Q7 Money, Banking and Keynes

(a) Currency is one form of money. One function of money is a store of wealth.

(i) Explain each of the underlined terms.
(ii) State and explain two other functions of money.
(iii) State one example of money other than currency. (25 marks)

(i) Currency: 5 marks
Notes and coins used to buy goods and services.

Store of wealth: 5 marks
Allows people to save for the future.

(ii) Two other functions of money

Medium of exchange
- Money allows people to get goods and services.
- Allows the buying and selling of goods/services to be broken into two distinct activities.

Measure of Value
- Money enables a price to be put on goods & services

Standard for Deferred Payment
- Money is capable of measuring value for a future date.
- Money makes credit trading (i.e. buying & selling) possible.

2 x 5 marks.
State: 2 marks. Explain: 3 marks

(iii) One example of money other than currency

- Cheques
- Credit Cards
- Debit Cards

1 x 5 marks
(b) Some banks in Ireland have been nationalised, and some have closed their operations in Ireland.

(i) Explain the underlined term and name one bank that has been nationalised.

(ii) Discuss one economic effect which the closure of a bank may have on each of the following:
    - Business customers;
    - Employees of banks;
    - Shareholders of banks.  

(ii) One economic effect (per group) which the closure of a bank may have on:

<table>
<thead>
<tr>
<th>Group</th>
<th>Economic effect</th>
</tr>
</thead>
</table>
| Business customers | 1. Loss of local service/higher costs  
The business will have to make alternative arrangements for their banking services, which may increase costs.  
2. Inconvenience  
Lodging monies may become more difficult with consequent security issues.  
3. Lack of relationship with bank manager / cash flow problems  
A business must build a business relationship to acquire bank overdraft / lending facilities. If they are not known personally by the bank manager they may experience cash flow difficulties. |
| Employees          | 1. Loss of jobs  
Some employees may lose their jobs with the closure of the bank.  
2. Re-location  
Some employees may be offered jobs in a new location resulting in increased costs / inconvenience in getting to work. |
| Shareholders       | 1. Reduced profits  
If the bank suffers a loss of customers then profits may decline resulting in reduced dividends to shareholders.  
2. Poor publicity  
The bank may suffer poor publicity, which may deter shareholders from investing in the bank.  
3. Reduction in share price  
The loss of confidence by shareholders with the possibility of reduced profits may result in a decreasing share price, resulting in a reduction in the value of the shareholders investment. |

State: 3 marks. Explain: 3 marks.
(c) (i) The economist, John Maynard Keynes, stated that people keep their wealth in the form of cash for three reasons:

- Transactionary;
- Precautionary;
- Speculative.

Explain each of the above reasons.

(ii) Keynes favoured Government involvement / participation in an economy. Do you agree with Keynes? Outline one reason for your answer.

(25 marks)

(i) Reason | Explanation
--- | ---
Transactionary | Cash is needed to buy goods and services
Precautionary | Cash is needed for emergencies / for ‘a rainy day’
Speculative | Cash is needed to take advantage of possible profitable investment opportunities.

3 x 6 marks each

(ii) Keynes favoured Government involvement / participation in an economy. Do you agree with Keynes?

Outline one reason for your answer. Yes / No. 

1 mark

<table>
<thead>
<tr>
<th>Reasons for agreeing</th>

State: 3 marks. Explain: 3 marks.
(a) In April 2011 the CSO conducted a Census of Population at an estimated cost of €60m.

(i) What do the initials CSO stand for?
(ii) Explain the meaning of the underlined term.
(iii) Explain one possible use each of the following could make of the data collected:
   Business; Local government i.e. your local County / Town Council; Central Government. (25m)

(i) CSO: **Central Statistics Office**  \(9\) marks (\(3 + 3 + 3\))

(ii) **Census of Population**
   This is the official counting of the country’s population.  \(4\) marks

(iii) One possible use of the data collected for each the following:

<table>
<thead>
<tr>
<th>Group</th>
<th>Possible Economic Use</th>
</tr>
</thead>
</table>
| **Business**         | **Future levels of consumer demand**
                        Producers can predict more accurately future demand for their goods and services. |
|                      | **Population data**
                        Detailed information on the population such as age, gender, marital status, number of
                        children, religion etc. is provided – and so businesses have detailed information on their
                        market. |
|                      | **Labour market**
                        The data can be used by businesses firms to see if they can meet their future labour
                        requirements. |
| **Local government** | **Housing requirements**
                        The local authority can forecast its future need for local authority houses. |
|                      | **Provision of services**
                        The authority can forecast its needs for public transport, schools etc. |
|                      | **Need for facilities for the population**
                        The authority can plan for retail, recreational facilities etc. for its population. |
| **Central Government** | **Infrastructural requirements**
                        It helps the government plan for future infrastructural requirements e.g. schools, roads etc. |
|                      | **Provision of essential services**
                        It indicates if additional investment in services is required i.e. health, education etc. The
                        information provided will also aid the government in preparing its current budget. |
|                      | **Pension / financial planning**
                        The government can predict more accurately what provision it should make for pensions,
                        child benefits etc in the future. |
|                      | **Demographic changes**
                        It provides information on demographic changes nationally. On a regional basis it helps
                        the government plan for the future needs of the regions. |
|                      | **Qualifications of workforce**
                        It provides details of the educational qualifications; levels of training attained by the
                        workforce which can help the government plan for future development of education and
                        training services. |

3 x 4 marks each – ONE POINT PER GROUP.
State: 2 marks. Explain: 2 marks.
(b) The Irish Government increased the statutory retirement age from 65 to 68 years.

(i) State and explain a reason why the Government increased the retirement age.

(ii) State and explain one possible economic effect which an increase in the retirement age may have on each of the following:

- The Irish Labour Market;
- Consumer spending.

(20 marks)

(i) One reason why the Government increased the retirement age

1. **Reduce the costs of future pensions / provision of services for ‘older’ people**
   People will retire at an older age and this saves the government the cost of their pensions / provision of services for these people / government continues to earn tax revenue from their continued employment.

2. **People living longer.**
   As people are living longer they may wish to work longer and this allows for people to continue working.

3. **Retain experienced workforce**
   By increasing the retirement age experienced workers are retained and this may result in greater efficiencies in the workplace / better delivery of public services / reduced training cost for new workers.

1 x 8 marks.
State: 4 marks. Explain: 4 marks.

(ii) One possible economic effect which an increase in the retirement age may have on each of the following:

<table>
<thead>
<tr>
<th>Factor</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Irish Labour Market</td>
<td><strong>1. Reduced job vacancies / increased competition for jobs</strong>&lt;br&gt;This may lead to increased unemployment for those seeking jobs e.g. graduates; school leavers / increased competition among workers for limited job vacancies.</td>
</tr>
<tr>
<td></td>
<td><strong>2. Days lost due illness</strong>&lt;br&gt;As the workforce gets older there may an increase in sickness / illness resulting in days lost.</td>
</tr>
<tr>
<td></td>
<td><strong>3. Productivity</strong>&lt;br&gt;Older workers may be more skilled / trained / experienced and so may be more productive. Alternatively they may be become tired and so productivity may fall.</td>
</tr>
<tr>
<td></td>
<td><strong>4. Lower training costs (in the short term)</strong>&lt;br&gt;With fewer workers retiring the training costs of new workers may fall.</td>
</tr>
<tr>
<td>Consumer spending</td>
<td><strong>1. Increased spending by those retained workers.</strong>&lt;br&gt;Wages / salaries provide more disposable income and so their spending may increase.</td>
</tr>
<tr>
<td></td>
<td><strong>2. Changed pattern of spending</strong>&lt;br&gt;Due to the changed composition of the workforce the pattern of spending may change.</td>
</tr>
</tbody>
</table>

2 x 6 marks each.
State: 3 marks. Explain: 3 marks.
(c) The Irish Government continues to spend on financial aid, to fund economic development in LDCs (less developed countries), although at a reduced level.

(i) Explain the underlined term.
(ii) State and explain two economic effects which this reduction in financial aid may have on the citizens in LDCs.
(iii) Outline two actions which the governments of LDCs could take to increase the standard of living of its citizens. (30 marks)

(i) Economic development: 6 marks

An increase in the level of income standard of living / output / GNP per person accompanied by a change in the structure of society.

1st correct response: 4 marks
2nd correct response: 2 marks

(ii) Two economic effects a reduction in financial aid may have for citizens in LDCs

1. Reduced standard of living
With less money coming into the economy the average standard of living will fall.

2. Deterioration in infrastructure
Reduced aid will mean that the government / voluntary organisations will spend less on infrastructure and citizens will suffer the consequences.

3. Increased poverty
Those people who rely on the financial aid are generally the poorest and so these people will suffer most leading to increased poverty within the LDCs.

4. Increased death rates
If the financial aid was used to buy food then some people in the LDCs may be deprived of food.

5. Decline in provision of services
Those services relying on financial aid may now lack finance which results in their closure or contraction e.g. schools; health care provision etc.

2 points x 6 marks each.
State: 3 marks. Explain: 3 marks
(iii) Two actions the governments of LDCs could take to increase the standard of living of its citizens.

1. **Promote population control.**
   Governments could encourage a reduction in population by various measures which would improve the welfare of its citizens.

2. **Improve basic infrastructure.**
   Provision of clean water & proper sanitation will help improve the standard of living. Provision of basic housing and the development of roads, power supplies etc. These improvements may help attract MNCs to the country and help create jobs.

3. **Promote land / agricultural reform.**
   By spreading the ownership of land more people will benefit. Improved production methods will modernise the agricultural industry. By reducing the emphasis on one crop / diversifying production may help increase incomes.

4. **Improve education.**
   A basic literacy programme to improve literacy skills. Provide primary education. Develop the secondary sector and initiate further education programmes. Provide technical skills for the population.

5. **Provide better services.**
   The government could provide services for its citizens e.g. health care provision; social services etc.

6. **State bureaucracy / corruption / spending on arms.**
   Reduce bureaucracy within state institutions. Eliminate corruption so that aid flows to those who it was intended for. Divert funds from arms spending to more urgent current requirements.

2 points x 6 marks each.
State: 3 marks. Explain: 3 marks.
